

## Ambushed! (Part 2)

After taking care of that last group of rustlers, you continue down the trail you know leads into a box canyon. You take care to get everything ready so that you can take care of 'em when they attack.

2 pistols holstered, with 5 rounds each, hammer resting on an empty chamber.

Shotgun, empty and open, staged on the middle hay bale, with 4 rounds to be loaded from your person.

Rifle loaded with 9 rounds, hammer on an empty chamber, held at port arms.

When ready, shooter says **"I'm ready for you!"** Then sweeps the rifle targets right to left, 3 times. Place the empty rifle on the hay bale with the action open. Move to the shotgun and sweep the swingers right to left twice. Move to the pistol targets and sweep the targets right to left with the first pistol, and continue the sweep with the second.
