

Creek Crossing

You are in the midst of getting yer stuff across a creek, seems that's the way yer horse ran off. Just as you are getting the last load of gear across, you are set upon by the Black Jack McDuff and his gang of desperados.

2 pistols loaded with 5 rounds each, hammer on an empty chamber, holstered.

Rifle loaded with 9 rounds, hammer on an empty chamber, staged on the left haybale.

Shotgun, empty and open, staged on the right haybale with 4 rounds to be loaded from your person.

Shooter starts with hands at surrender, at the left haybale. At the buzzer, shooter picks up rifle and engages the 3 rifle targets in 3 sweeps from left to right. Shooter puts rifle back on haybale action open and empty. Shooter moves half way across the wooden bridge and draws pistols and shoots the pistol targets in the order shown. Shooter moves the rest of the way across and sweeps the shotgun targets from left to right twice.

NOTE: A 5 second penalty will be assessed for EACH step that isn't on the wooden "bridge". Shooter must remain on the plank for both pistols and for the movement from rifle to shotgun!
