

## Faster Draw

You're sittin at a table with a hand full of cards, and you know that the man on the other side is cheatin'. When you call him on it, he draws. You're faster. After you shoot him, you look at him and say **'You may win by cheatin', but you can't beat a faster draw.'** As you move from the table, his henchmen come out of the woodwork. You grab your shotgun and get 4 before you run out of ammo. You then grab your rifle and get the rest.

2 pistols holstered with 5 rounds each, hammer resting on an empty chamber.  
Shotgun staged on the table, open and empty, with 4 rounds to be loaded from your person.  
Rifle staged on the table with 9 rounds, hammer resting on the empty chamber.

Shooter starts with 5 cards in hand. At the buzzer, shooter drops the cards, stands up, and shoots the pistol targets in this order: 3 shots on the left, 3 on the middle, 3 on the right, last in the middle. After shooter holster's his second revolver he/she says **'You may win by cheatin', but you can't beat a faster draw'**. Shooter then picks up his shotgun and shoots the 2 swingers from left to right twice. Place the shotgun back on the table open and empty and pick up the rifle. Triple tap the rifle targets 3 times each from left to right.
