

Practice – Stage 5

It takes a lot of practice to become an accomplished shooter. In your profession as Marshal of Feldspar, CO, you need all the practice that you can get!

2 pistols loaded with 5 rounds each, hammers on empty chambers, holstered.

Rifle loaded with 10 rounds, hammer on an empty chamber, staged on haybale at position 1.

Shotgun staged on haybale at position 2, 6 rounds to be loaded from your person. Action open and empty.

Shooter starts behind left haybale (rifle location) with both hands touching the brim of his/her hat. When ready call out "I hate practice!" At the buzzer, retrieve your rifle and shoot the left target 3 times, the center target 4 times, and the right target 3 times. Place the open and empty rifle back on the haybale. Move to the shotgun, and shoot the swingers left to right 3 times. Place the open and empty shotgun back on the haybale and move to the last one. AFTER STOPPING, draw your first pistol and alternate from L to R. Holster when empty. Draw your second pistol and repeat, again starting on the L.
