

## Injuns!

While watering your horse, you are jumped by a band of injuns that are interested in your scalp. While you chase off the first batch with your rifle and shotgun, another comes in to try to take yer gear. You run after them and take 'em on with yer pistols.

Pistols loaded with 5 rounds each, holstered, hammers resting on empty chambers.  
Rifle loaded with 10 rounds, hammer on an empty chamber, staged on the rest.  
Shotgun, to be loaded with 6 rounds from your person, held at port arms.

Shooter starts at box A holding shotgun with both hands, at port arms, and pointed downrange. When ready shooter calls out "**Injuns!**" Shoot the swingers left to right three times, no double taps. Stage the shotgun on the rest. Pick up the rifle and shoot the 4 rifle targets with a Nevada sweep, starting on the left target. Stage the rifle open and empty on the rest. Move downrange to box B and shoot the pistol targets following the same sequence as the rifle.
