

## Rope 'em!

You have just roped a new bronc when you get jumped! You respond with your pistols to drive them under cover, and then go for the shotgun to make sure that they won't bother you any more.

2 pistols loaded with 5 rounds each, hammer resting on an empty chamber.  
Shotgun staged on a hay bale with 6 rounds to be loaded from your person.

At the buzzer, Shooter ropes the "bronc" (actually a log, and done on the clock). Once the log has been roped, shooter proceeds to shoot the pistol targets.... 3 in the left, 4 in the center, 3 in the right. Shooter holsters the pistols, retrieves the shotgun, and shoots the swingers left to right 3 times, no double taps.

NOTE: If after three tries and the "bronc" hasn't been roped, shooter may commence shooting.  
NOTE: Failure to make an effort to rope the "bronc" will result in a 20 second "Spirit of the Game" penalty.
