

Stage 1: Rustlers!

Early one morning you wake up with an odd feeling. Knowing to trust these, you head on out to see what there is to see. You find rustlers trying to head off the herd!

2 pistols loaded with 5 rounds each, hammers on empty chambers, holstered.

Rifle loaded with 10 rounds, hammer on the empty chamber, staged on the left side of the fence.

Shotgun, open and empty staged on the right side of the fence, 2 rounds to be loaded from your person.

Shooter starts standing at the middle of the fence with one hand on holstered revolver.

When ready, call out "**Clear out of here!**" At the buzzer, draw your first revolver and start a Nevada sweep of the 4 pistol targets, starting from the left. Finish the sweep with your second revolver. Holster. Move to the left side of the fence and retrieve your rifle. Nevada sweep the rifle targets starting on the left. Place the open and empty rifle back against the fence. Move to the right side of the fence and retrieve your shotgun. Shoot the swingers left to right.
