Hay Bale for Rifle

Trap

Hay Bale for
Shotgun

It's late one night on your cattle drive and you have heard that Crazy Joe and his gang of rustlers are hereabouts. A shot rings out and you go to investigate to find Joe and his gang tryin' to rustle your cattle! You git within range and yell out **"You ain't gettin' these cattle Joe!"** And try to drive them out.

2 pistols loaded with 5 rounds each, hammer resting on an empty chamber.

Rifle loaded with 10 rounds, hammer resting on an empty chamber, and staged on the left hay bale.

Shotgun empty and staged on the right hay bale. 7 rounds to be loaded from your person.

When ready, shout your line **"You ain't gettin' these cattle Joe!"** and engage the pistol targets (center, left-center, right-center, left-most, right-most) with your first pistol, holster and repeat with the 2nd. Move to the hay bale to retrieve your rifle. Engage the rifle targets in any order, making sure to hit each one 3 times, and the 10th shot **MUST** be on the center target. No double or triple tapping. Restage the rifle empty, with action open. Move to the 2nd hay bale and retrieve your shotgun. Sweep the shotgun targets left to right. At the sound of the 3rd shot, the trap will be released. Hit the bird for a 5 second bonus for your 4th shot. Repeat the sweep, with no bird the 2nd time around.
